Variation is intrinsic to the beauty and warmth of handmade ceramic tile; expect tile to vary slightly in size, shape, and color. No single tile can properly represent the entire character of a glaze. All gloss crackle glazes are sealed with clear sealer, and should be sealed again after installation.

Due to limitations of the printing process, the colors here may not be a totally accurate description of the actual product. Images are intended as a guide only, and should not be used to order. It is important to have a sample composed of several tiles when making final glaze selections.
