Our mission is to enhance the built environment with handmade ceramics that engage, inspire, comfort and delight. From curves to corners, shapes set the tone and feeling within a space.
FIELD TILE SIZES (bullnose and square bullnose available on long, short and adjacent edges)

Variation is intrinsic to the beauty and warmth of handmade ceramic tile; expect tile to vary slightly in size, shape, and color. Approximate thickness of tile is 7/16 inch. Tile are intended for light residential use indoors.

Bullnose and Square Bullnose available on long, short and adjacent edges.
Our soothing surfaces are the alchemy of natural materials and careful craftsmanship. The union of art glazes and handmade tile creates unique environments that are alive with unmatched character and charm.
Minimal (MIN) Moderate (MOD) High (HIGH) Intentional (INT)

Variation is intrinsic to the beauty and warmth of handmade ceramic tile. Because of slight differences in raw materials, atmospheric conditions and kiln loads, each run may have shifts in color, crackle pattern and other characteristics. Differences in size, shape, and glaze color from tile to tile and even within a single tile are intentional and should be expected. The reference diagrams at right show the possible variation ranges. Each glaze image has a label to communicate the amount of variation one can expect from a glaze.

Due to limitations of the printing process, the colors you see here may not be a totally accurate description of the actual product. Images are intended as a guide only, and should not be used to order. No single tile can properly represent the entire character of a glaze. It is important to have a sample composed of several tiles when making final glaze selections.

WIZARD SPECIFICATIONS

Wizard is a handmade white body ceramic tile made in Los Angeles, California. It comes in over 100 glaze colors and a wide variety of sizes, patterns and trim parts are available on a made to order basis. A selection of parts and glazes are also held in stock.

As it is a handmade tile, it will vary slightly in size and thickness. The tile surface and grout lines will not always be straight and square. Glazes will vary in brightness, color, and texture. These features are intrinsic to the beauty of Wizard tile’s handmade process and are intentional.

Sustainability

Our facilities are located in Los Angeles California, and operate under the strictest environmental regulations in the country. Wizard facilities recycle 100% of the water and clay used in the production of Wizard tile.

Wizard tile may qualify for the following LEED points:

- MR 5.1/5.2: Regional Materials (2 points)
- EQ 4.2: Low-Emitting Materials (1 point)

Usage

Wizard Tile is suitable for Light Use Residential wall and floor installation, and can be used in wet areas including showers and steam showers. Wizard Tile may also be used in non-floor commercial installations.

If you have questions about the suitability for a particular project please contact Wizard Enterprise.

Installation

Wizard Tile is installed as you would install any tile and does not require any special materials or tools. We recommend setting Wizard Tile with a 1/16 to 1/8 inch joint with un-sanded grout.

Crackle Glazes are pre-sealed in the factory for installation. **Tile will need to be sealed again after installation when the grout is sealed.** We recommend Miracle Sealants Porous Plus or any quality penetrating sealer.

Consult the current TCNA Tile Installation handbook for the proper installation method for your application.

Maintenance and Care

Wizard Tile may be cleaned with any non-abrasive household hard surface cleaning products. Acidic or caustic cleaners are not recommended.

Crackle glazes in wet areas will require periodic sealing per sealer manufactures recommendations, usually yearly.

Lead Time

Stock Orders ship in approximately 1 week. Made-to-Orders projects ship in approximately 5 weeks. Large or custom projects over 2,000 sq. ft. will take 6–8 weeks or longer (please call Customer Service at 323-756-8430 for estimate).

Please consult wizardenterprise.com for more detailed specifications for the Wizard Product line.
